You can download any page as a PDF using a link

provided in the left-hand menu, but unfortunately

there's no support for other formats. There's also

Collection Creator - a handy tool that lets you collate

several pages, organize them, and export them

together (again, in PDF format). It's a nice feature that

enables you to customize your reading material, but

it's a bit of a hassle, and is really designed for readers

who want printouts. The easiest way to read Wikibooks

is simply to open them in your web browser.
