to be implemented in the immediate future. What's Different about Agile Scope Management? - dummies Scope creep can be a problem for agile if the product owner is naive about how this works. When new items go into the backlog, they need to go in an order of priority. The Product Backlog is an ordered list of backlog items. If a new item goes into the backlog, above other items, it is effectively "pushing them out of the way". Agile scope: How to manage scope creep in agile - Extreme ...
