The best models are adaptable and flexible so that practitioners can modify them for specific situations. Models should support social workers to do the right thing and not become a mechanistic way... Social care commentary: using models of practice ... The social work practice models identified below are among the most widely accepted and proven techniques in the field. Because clients come from different backgrounds, experiences, and areas of need, these techniques may vary. The models below give social workers and their clients several different approaches to intervention, treatment, and ... 12 Common Social Work Theories | The Quad Magazine Outcomes-based trial of an inpatient nurse practitioner service for general medical patients. Journal of Evaluation in Clinical Practice,7(1), 21-33. Runy, L. A. (2007). Filling the gaps: Physician assistants and nurse practitioners: Expandable roles and responsibilities. Hospital Health News,81(1), 53-58. Wachter, R. M. (2006). An Innovative Nurse Practitioner Model for Hospitalist Care Educated graduate NPs rated the importance of nursing theory to the NP practice role significantly higher than did diploma and baccalaureate degree NPs (4.05 ± 2.06 versus 2.65 ± 1.69 , $p < .001$) but both groups

rated the nursing models as less important for practice than a medical model approach. Huckabay highlighted the need for the use of a ... Exploring conceptual and theoretical frameworks for nurse ... The explicit form of a logic model means that you can combine evidence-based practices from prior research with innovative ideas that veteran practitioners believe will make a difference. If you are armed with a logic model, it won't be easy for critics to claim that your work is not evidence-based. Chapter 2. Other Models for Promoting Community Health and ... tinue to remain passionate learners. The scholar-practitioner model offers an opportunity for self-renewal, as experienced by one doctoral student fi nding her-self at a point where she had to decide which type she would identify with. The zeal of scholarly work, when placed within the confi nes of practice, will sustain The Scholar-Practitioner Concept and Its Implications for ... A wide range of nurse practitioner models was represented by the sample. The emergency nurse practitioner was the largest model represented at 23.2%. This is reflective of the proportion of emergency nurse practitioner models in the overall nurse practitioner population (28.6%) (Gardner et al. 2009). Data were also collected to describe the work schedule of nurse practitioner participants, and included office hours, shiftwork with night duty, and shiftwork without night duty. The work of nurse practitioners - Gardner - 2010 - Journal ... The generalist social work model at Wichita State University educates students for practice in a metropolitan environment. It is practice oriented, and strives to instill specific values and skills within the new practitioner, drawing upon knowledge gained in the

liberal arts and in their social work courses. As such, the model is more outcome
